

Scope of Practice

Massage Therapist Association of Alberta
Scope of Practice

PRACTICE STATEMENT

In their practice, Massage Therapists do one or more of the following:

- a) Assess, diagnose and treat the soft tissues and joints of the body, with the intent of producing a therapeutic outcome or providing preventative care, and
- b) Contribute to the development and improvement of primary and complementary health policy, and
- c) Teach, manage and conduct research in the science, techniques and practice of Massage Therapy.
